

JOB ADVERTISEMENT

Founded in 2008, better with water (previously Eau et Vie) is a French non-confessional and non-political international solidarity association, inspired by an idea: slum dwellers also deserve and can afford sustainable water supply in their homes.

The levers of action are access to a water service at home, the absence of which is a real scourge in densely populated urban areas, and whose impact is also achieved through community building.

In 2024, better with water works in 2 countries (Bangladesh and the Philippines) for a global budget of 4.3M€, with mixed financing (private and public).

In the context of establishing a new position, **better with water** is actively seeking a:

Logistics Specialist - based in the Philippines

As part of the Head Office in the Philippines and under the supervision of the Country Director, the Logistics specialist will provide operational support by developing, implementing, and monitoring the procurement and supply chain processes, as well as managing IT and security operations.

The main responsibilities are the following:

- Develop and execute strategic procurement plans that are in alignment with the objectives of both our NGO and Social Enterprise, while meeting the requirements of international donors and national standards.
- Cultivate and sustain robust relationships with important suppliers to negotiate favourable terms and conditions, encompassing aspects such as pricing, quality, and timely delivery.
- Implement and monitor the stock management policy to ensure efficient inventory control.
- Take charge of IT and Facilities management, serving as the primary liaison for interactions with headquarters on these topics.
- Ensure the safe and efficient transportation of personnel and goods by enhancing existing transportation policies, as well as Safety and Security management, in close collaboration with HR Manager.
- Facilitate team capacity building across relevant areas.
- Contribute to the optimization and development of organizational tools and procedures.

POSITION TO BE FILLED ASAP

Several weeks of orientation will be organized

A large, dynamic splash of blue water against a light blue background. The splash is shaped into a heart, with water droplets and bubbles radiating from the center. The heart is formed by the main body of the splash, which is a deep blue, while the surrounding water is a lighter, translucent blue.

Education & Professional Background

Holder of a Master's degree in **Logistics** or Project Management or Development program management, you have a **proven experience of at least four years** spent as Logistician or in a position including one of the following topics: **supply chain, procurement, stock management, security management**.

A **2-year-long experience on international development program** is compulsory, including coordination and training in intercultural contexts. A first experience **with international donors** (like AFD) is mandatory.

First contact with the Philippines' context and/or one of better with water's fields of interventions are more than welcome.

As a proficient conductor, you excel in designing and adapting processes to support operations, taking into consideration the constraints of the slum contexts and the existing challenges.

Working autonomously, you demonstrate proactivity and a keen interest in capacity building for teams. Patience, leadership and sense of pedagogy will be helpful in a context of structuration and development of a new function in better with water.

Language skills

Fully proficiency in English is compulsory. Knowledge of French would be a very strong asset.
